

**USE INEXPENSIVE BULK  
CHEMICALS AT FRACTIONS  
OF THE COST OF READY-MADES**

Model "B" Sprayers are available in 8oz and 16oz. capacities. The sprayers are the same diameter as an aerosol can and can be used with many products. All Model "B" sprayers come standard with Viton® seals. These seals are compatible with MOST products. Other seals are available. Always check with your chemical supplier or Milwaukee Sprayer customer service to be sure the product you are using is compatible with the Sure Shot® sprayer you choose. Standard maintenance includes periodically replacing the Valves and Nozzles. These parts are available both individually and in complete repair kits. Call for details.
